

## Micro ride-on scrubber dryer doubles cleaning output at price of walk-behind model

The Nilfisk SC2000 mini ride-on scrubber dryer eases the working effort significantly compared a walk-behind machine. An attractive choice for cleaning of offices, supermarkets, sports centers, shops, restaurants, hotels, and institutions like hospitals and schools.

Taking working speed up to 6 km/h – from an average 4 km/h with a walk-behind scrubber dryer– the SC2000 has a great impact on both productivity and cleaning costs.

It is easy to maneuver even in narrow spaces thanks to its compact dimensions. Thanks to patented Nilfisk SilenTech™ and its silent mode function for ultra-low sound level, you can use the machine for daytime cleaning, even in sound sensitive areas.

70L tank capacity allows to clean up to 120 minutes per tank reducing the time spent for dumps and refills."Productive: 53 cm scrubbing width, high speed (6 km/h), 70/70 L.

Optimize the battery-powered runtime of your SC2000 with our new Lithium-Ion Battery.

Picture shown may not represent model quoted

- Productive: 53 cm scrubbing width, high speed (6 km/h), 70/70 L
- Compact and comfortable: very compact dimensions for narrow areas, comfortable seat and wide space for operator's legs.
- SmartFlow™ : solution flow of detergent/water automatically controlled by speed to have consistent cleaning and reduced consumptions
- Ideal for daytime cleaning: Nilfisk SilenTech™ technology keeps extreme low sound level in all conditions
- SmartKey™ system with Separate Supervisor and Operator keySettings effectively controlled
- Easy to control: Dashboard with OneTouch™ button; intuitive display integrated in the steering wheel.
- Water filling system automatically shutoff water when the tank is full
- USB port as option
- Easy handling: Automatic brush click on/off and plastic light squeegee with patent elastic strap system.
- Sustainable: Ecoflex™ system with flexible detergent setting and water-only cleaning. Self-adjusting brush speed according to floor type and application to save energy consumptions."
